Experience

nFactorial School

Summer Full-stack Development Bootcamp
June 2022 - August 2022 (3 months)
Almaty, Kazakhstan

nFactorial Incubator is the largest tech bootcamp in Central Asia led by Princeton U graduate & FAANG engineers.
- Built a Chrome Extension using Chrome's own API to track time of user spent on each permited website to share it with proctor/parent, which will the user to improve proctor's further feedback
- Attended daily lectures and learnt about how to build web applications on full-stack
- Guest Lectures by Lan Le, Stanford University Alumni & Product Manager at Miso.AI about UX
- Ideation with Arman Suleimenov, who shared his web-app ideas that worth to realize till the end of the bootcamp [Here's a note from one of those meetings -> https://github.com/realdarkxeon/nfactorial-homework-0608-dom/blob/master/how-to-generate-ideas-by-armansu.txt]
- Ended up being in 180 accepted out of 4000+ applied
- Full-time 10-week active web-app development
